Water Group Job 3008: E-News #1

E-News Series for the Harbor Drive Area

Welcome to the first e-newsletter for Water Main Replacement Group Job 3008. The newsletter will be distributed every two weeks to keep the community informed about construction progress.

Group Job 3008 Project Description

On May 26, the City of San Diego Engineering and Capital Projects Department (E&CP) began Group Job 3008 along Harbor Drive in downtown San Diego. The existing cast iron mains are nearly 60-years old and are at the end of their service life.

The project will:

- replace 17,979 feet of 16" cast iron water mains
- improve service reliability
- minimize future water main breaks caused by aging pipes
- increase the size of existing pipes to better serve the area

Total project cost is \$5,777,000.

There are two sections for this project:

Section 1: Group Job 532 runs along North Harbor Drive from West Laurel Street south until it intersects Pacific Highway. On Pacific Highway, it runs from F Street into Seaport Village.

Section 2: Group Job 533 runs along North Harbor Drive from Laurel Street to Winship Lane, and from the Airport Terminal 2 exit west to Lee Court.

Upcoming Construction Activities

One construction crew will work in each section. The crews will work to minimize impacts to the residents, businesses and visitors who travel in and out of this area. Construction will generally occur in this sequence:

- dig trench and install new water main
- cover trench, compact, and cap with temporary paving
- pressure-test and sanitize before individual water services are re-connected to the water meters
- abandon old water main (leaving the old pipe in place)
- slurry fill abandoned water main
- remove temporary trench caps and repave street

Traffic Control:

Where construction is occurring, a minimum of one lane of traffic will be provided. Please adhere to temporary road and no parking signage. Business and pedestrian access will be maintained.

Construction Schedule and Work Hours:*

May 26, 2009 - April 12, 2010

All work south of Ash Street will be completed by the end of September 2009.

Day work: Monday - Friday 8:30 a.m. to 3:30 p.m.

Night work: Monday - Friday 9:00 p.m. to 6:00 a.m.

**Information is subject to change. Revised updates will be provided via email.*
